# The Wainwright Star

VOLUME XIV. NUMBER 28

WAINWRIGHT, ALBERTA, WEDNESDAY, JUNE 26, 1922.

PRICE \$2.00 Per Year in Advance.

## GOVERNMENT GRANT TO MUNICIPAL DISTRICT NO. 422

Meeting of the Council of the Municipal District of Gilt Edge No. 422 on Wednesday last.

Councillors present—F. M. Ford, L. B. Wallace, F. Perkins, J. Church, F. Traynor and F. Bailey.

Perkins—That minutes of last meeting be adopted as read—Carried.

Traynor—That Councillors Bailey and Perkins be a committee to interview bank manager re loan—Carried.

Said committee reports that Bank of Montreal will continue to finance Municipal District.

Perkins—That correspondence arising from minutes of last meeting be proceeded with—Carried.

Committee re deficit reports Ford—That Secretary interview department re M. D. No. 422 business—Carried.

Mr Love M.L.A. and Mr Robertson, Road Engineer, waited on Council re Provincial Grants and stated that our Grant for 1922 will be \$1000.

Bailey—That meeting adjourn—Carried.

Meeting re-opened at 2 p.m.

Ford—That Mr Robertson road Engineer meet Councillors on June 8th to inspect Fulton Petition Road, also the O'Keefe Division—Carried.

Wallace—That when Surveyors are in district that the road re the south side of N.E. 24-44-5 be surveyed—Carried.

Traynor—That the following men be appointed as Pound-keepers for each division.

Divisions 1, 2, 4 and 6 have not yet been appointed. Div. 4 B. Keefe, Div. 5, J. Allinson.

Church—That the C.P.R. payment of \$28.22 in mistake of local Lands Tax be refunded—Carried.

Church—That Secretary be instructed to open a Petty Cash Account at the bank for the summer of \$100.00—Carried.

Wallace—That the Secretary consult the Dept on the advisability of discontinuing the payment of road-work by cheques and instead work of these amounts against taxes—Carried.

Perkins—That the rate of pay for road-work for current year shall be—Man per day \$2.50, 12 hours \$5.00; 14 hours \$7.50—Carried.

Ford—That each Councillor shall be allowed a fee hand in hiring road foremen at a maximum rate of \$3.00 per day.

Ford—That Secretary procure a file for each Division Pay Sheet and that the primary number on each pay-sheet shall correspond with the division number further that a copy of each Pay sheet, (after being O.K'd by Council) and initiated by Secretary shall be given to Councillor concerned—Carried.

Perkins Amendment—That the said taxes be 3 mills—Lost.

Perkins—That the appropriations for current year, by divisions be—

Div. 1, \$115.00 Div. 4, \$100.00 Div. 2, \$130.00 Div. 5, \$120.00 Div. 3, \$140.00 Div. 6, \$800.00 Total \$1695.00—Carried.

Perkins—That upon the application of any resident that any specified road be opened up, secretary shall at once notify responsible party in the case to remove the obstruction within 15 days—Carried.

Traynor—That following bills amounting to \$209.42 be paid—Carried.

Council adjourned to meet again on Thursday June 27th 1922 at 10 a.m.

### LACK OF COURTESY

Talking with a good citizen of the town last week he commented upon the want of good manners shown by young people in not recognizing on the street friends and acquaintances of the family whom the boys or girls knew well, even though they might not be close friends.

This breach of good manners appears to be due to indifference and laziness, and possibly to snobishness in a few cases.

The graces of sympathy, of politeness, of courtesy, of kindness may be rather roughly used in these strenuous days, but they form the most beautiful adornment a young man or a young woman can wear.

### NORMANDIN'S LAKE

We learn that several new cottages are to be built at the lake this summer. A large dancing pavilion has already been planned for, and refreshments and meals will be supplied by a fully experienced chef who is already on the grounds.

Mr Normandin has built a road around the south end of the lake so that the long sandy beach on the south side can be easily reached with a car. We learn that the boat will be launched in the near future and arrangements have been made for music. Many other plans are under way to increase the popularity of this cool shady lake.

## TOWN STORES WILL TAKE HALF HOLIDAY JUNE, JULY & AUGUST

The following merchants have signed the petition which naturally agrees that they will close their stores each Wednesday afternoon during the months of June, July and August:

J. C. McLeod  
A. Scofield  
H. W. McLeod  
J. L. Gerow  
J. Telford  
F. Gordon  
O. J. Elder  
W. F. Fish  
R. G. Dunsmore  
W. S. Goulet  
A. Dupre  
R. A. Snyder  
W. Huntingford  
A. C. Armstrong  
J. Bryant  
S. Bowerman  
R. Fraser and Co.  
W. H. Robinson  
M. Donovan  
E. L. Cork  
Cole Stewart  
K. Dunn  
H. C. Montgomery  
J. Hall  
Alberta Restaurant  
Imperial Lumber Co.  
Empress Cafe  
S. Lewthwaite  
Atlas Lumber Co.  
G. T. Steel  
P. Dewar  
A. Savers  
United Grain Growers  
N. Hawlf Elevator

## DRILLING RESUMED AT THE IMPERIAL OIL WELL AT FAYAN

After several weeks effort the crew at the Imperial Oil Co's well, west of Wainwright succeeded in forcing enough water in the well to hold back the gas pressure and drilling has been resumed through a holeful of water.

For some time the gas has been reported to have been throwing shells and chunks of shale high in the air. No information can be secured from the crew but it is presumed that the large hydraulic pumps were connected up and water forced through the cap until the weight of the water held back the gas.

Drilling is being resumed through the water with a specially built heavy drill but it will not be as easy to keep an accurate log of the well. Progress will likely be very slow until such time as the hole has been drilled through the gas sand and the casing set low enough to shut off the gas. Rumors are current that the company are contemplating starting the rotary rig on a new location in the near future. Just where this location will be or when the rig will be moved has not been officially stated by any of the company employees.

Communion Service was held at St Andrews' last Sunday and ten new members were added to the church roll.

For cedar posts, fencing, sidewalk, and building materials go to the Atlas Lbr Co. J. Welch manager.

## GRAIN MEN ARE CONCERNED OVER TAX ON CHEQUES

Grain men are much concerned over the increased stamp tax on cheques, which they say will greatly militate against their business. They have taken the matter up with the secretary of the Winnipeg Exchange who wired on Saturday that the committee of the Exchange was now investigating the matter.

It is pointed out that a car of grain may change hands more than half a dozen times before it is actually exported. "It will certainly work a great hardship to the trade if the tax goes through," remarked a member of the Exchange to The Herald on Saturday. "It will simply mean that commission men will have to charge more than one cent a bushel if they have to pay the extra proposed tax."

The action of the Winnipeg Exchange is therefore awaited with much interest by the grain trade here—Calgary Herald.

## NO FIRE RISK TO RADIO APPARATUS PROPERLY PUT UP

Another step in the universal recognition of citizen radio has come with the promulgation of insurance underwriters and engineers of new rules for installation of radio devices in the home. The national electric code heretofore has required an expensive and intricate installation. These rules have generally been enforced by insurance inspectors.

The home aerial has been considered a distinct menace in that it was said to attract lightning. But experience of the insurance companies indicates the aerial has not proved the hazard that was anticipated. So far from being a menace, the home aerial properly installed is now considered more of a protection. The Canadian Fire Underwriters Association rules call for only ordinary insulation and lightning arrester protection in the installation.

These new rules state that the antennae shall not cross over or under any electric light wires in such a manner that they may come in contact with the power lines and that the antennae shall be "constructed and installed in a strong and durable manner." All joints and connections in the antennae wires must be soldered.

Lead in wires must not come nearer than four inches of any electric light or power wires, and must enter the building through a "non-combustible, non absorptive insulated bushing."

Lead-in wires must be protected with an approval lightning arrester, such as is now sold for a dollar or two at any radio store.

Wires inside must not come within two inches of any electric light wires unless thoroughly insulated by a porcelain or other like insulating conductor in addition to the usual rubber covering of the wires.

These directions, simple and inexpensive to follow, and all that will be demanded by your insurance inspector.

## JUNE, JULY AND AUGUST, WEDNESDAY HALF HOLIDAYS

The annual summer half holiday is now in order and it is up to every business man to see that his doors are closed every Wednesday afternoon. The merchants have set dates and every good citizen will abide by their decision. It is not only the front door that must be lowered but also the BACK one. It is not a hardship on the buying public and is a blessing to the shop keeper. The farmer sets his half holiday for Saturday afternoon and why is not the business man entitled to the same consideration? If on every business house is closed light the purchaser will realize that Wednesday afternoon is truly a holiday and will not come to town. Either enforce the holiday or call it off, don't bluff.

Mr J. H. Morris, of the Imperial oil well, spent the week end in the city.

## THE LOCAL AGRIC. SOCIETY ANNOUNCE SUMMER FAIR

The Wainwright Agricultural Society met in the Town Hall on Saturday evening and arrangements were made for the annual Summer fair to be held on Wednesday August 2nd.

The committees are now busy preparing the Prize List which will be very attractive in spite of the reports which indicate that the government has curtailed the allocations to Country Fairs.

We hope that every farmer in the Wainwright district will be able to prepare some animal for exhibition. It is especially desirable that the younger men should cultivate ambitions in this direction.

In addition to a live stock show we desire to make the Wainwright Fair a Annual Celebration for the whole district. We are pleased to learn that the committees are a communication with other attractions of a special nature. We hope that both town and country will unite in a genuine community spirit to make 1922 the best fair yet.

The committees appointed, for the different departments are: Horses—Dr. S. E. Wiley, F. Perkins, Jas. Robinson and A. Sharp.

Cattle Sheep and Swine—J. W. Stuart, D. Williams, H. Lind, S. R. Bowerman and E. Blain.

Grounds—M. L. Forster, E. L. Cork, W. G. Pigeon, H. L. Hough, J. Welch and E. Irving.

Full information may be received from members of committees or S. Lewthwaite, Sec.

## THE EXAMINER'S WEEKLY REVIEW OF PROVINCIAL MARKETS

(Thursday June 1st 1922.)

### CATTLE

Beef—Edmonton reports market quiet, but prices about steady. Choice steers, \$5.50@5.75; medium, \$5@5.75; common from \$4 down. Choice cows will make medium, \$3@3.25; common, \$2.50@3; canners, \$1.25@1.75; choice heifers from \$6.50 down. No many calves, with choice at \$8; milkers, \$3@3.50; medium, \$2@2.50; canners, \$1@1.50. Feeders and Stockers—Not enough good quality feeders come in; quote choice at \$4@4.50; stocker steers, \$2.50@3.50. Stocker heifers, \$2.50@3.50; stock cows, \$2@2.25.

### HOGS

Edmonton has been getting good run of hogs, and price advanced to \$13.00; shipments are being made east and west from northern yards.

### SHEEP

Edmonton demand is strong on sheep, with lambs, \$11@13; ewes \$7.50@9; wethers, \$9@11.

### GRAIN

Wheat markets are weakening badly, and after the May contracts had been so readily filled, the market during the past few days has been especially bad.

This condition is assisted by the favorable crop news on the continent. Alberta conditions are beginning to cause a little anxiety in some parts owing to lack of moisture, though nobody is hurt much yet. Manitoba and Saskatchewan have good reports.

### PRODUCE

Butterfat—Prices at Edmonton declined today to 30c, 27c and 24c on specials, firsts and seconds; receipts very light, about 50 per cent down from last year. Creamery Butter—Prices drop today to 34c on prints; carlots probably 31c. Eggs—Prices unchanged; receipts good; all surplus going into storage. Cheese—No change in prices. Poultry—Nothing new shipments light.

### HAY

Demand very slow; dealers paying \$15@21, according to shipping point, on upland.

### HIDES

Prices unchanged, but dealers able to make sales on present levels; green salted butchers, 3c, calf, 5c; kip, 3c@4.

### WOOL

Buyers are now negotiating for western clip; likely to secure more this year than previously.

## LOCAL CURIOS MAY BE SEEN IN TOWN STORES

When your shopping is completed and you have a few hours to spare, a profitable hour may be spent by visiting two of our local stores.

We hear that Geo. Rydale has on exhibition at Bisson's Implement store a "Ox Yoke" which was in use over 100 years ago. It is also reported that there is on view at Stuart's Meat Market a "Sausage Grinder," which has passed the century mark.

We may add, however, that we are unable to prove the validity of these statements. The Editor is away and the members of the staff are young and inexperienced. We may suggest, however, that a visit to these places may be found profitable and instructive.

Fire Insurance; houses to rent. See Joe Welch.

## AN INNOVATION FOR SUMMER VACATION TRAVEL

This is an age of advancement. People insist on seeing something new and seeing it in a new way. Things are done differently to what they were years ago, and with the idea of being up-to-date in every respect, the Canadian National Railways are affording the people of Western Canada an unusual opportunity of meeting these desires. To this end a special train is being operated, commencing at Winnipeg through to Prince Rupert, connecting with G.T.P. steamship for Vancouver, Victoria and Seattle, making stops at various points of interest en route, such as Little Lake Maitson, (Vatrous), Saskatoon, Buffalo Park (Wainwright, Alta.), Edmonton, Jasper Lodge (Jasper, Alta.), Prince George, the canneries in operation on the Skeena River, B.C. Prince Rupert, Vancouver, Victoria and Seattle.

This train will leave Winnipeg at 11:30 P.M., Friday June 30th.

The lowest possible fare will be charged, viz: \$130.00, which will include return transportation from far points; also sleeping car fare, meals and all entertainment on the going trip, so that passengers will only be required to pay for their meals and berth on the return trip. Choice of various routes may be had for the return trip.

An official of the Canadian National Railways will accompany the party throughout on the going trip to look after their comfort and pleasure, which will ensure an enjoyable time for all concerned. The number will be restricted, so as to ensure a maximum comfort.

Full information may be had from any Canadian National Railways Agent.

Let us help you to preserve your property and make it beautiful with a coat or two of our guaranteed paint. Come in and see the colors. Let us figure the cost; that is free.—Joe Welch at the Atlas Lbr Phone 57.

## MUNICIPALITIES GET TOGETHER IN EFFORT FOR UNIFORM BYLAWS

Mighty swaths were cut across a bylaw which the Vermilion Valley municipal district had prepared under the provisions of the new Domestic Animals Act, and which it submitted to a conference of seven adjoining municipalities in the Albert hall last week. Scarcely a shred of the original garment was visible when the conference was over, and the next session of the legislature will probably see some important amendments brought in to make the statute a little more workable.

The conference was called at the suggestion of the Vermilion Valley district for the purpose of arriving if possible at a standard bylaw governing the running at large of domestic animals. For some time past each municipality had a bylaw of its own, and which might differ very materially from that in the adjoining district, even if conditions were identical.

## BOYS OF WAINWRIGHT AND DISTRICT CAMP AT CLEAR LAKE

### BASEBALL NOTES

On Friday June 2nd a good crowd of local fans made their way to the exhibition ground to see the Greenfields and Irma teams; perform on the local diamond. The aggregation from the east took the long end of 14 to 5.

The game only a fair exhibition of ball, the many errors showing that practice, and more practice is needed. In this respect Greenfields showed up much better than their opponents.

The score of innings was as follows: Greenfields—1-1-1-3-0-2-0-6-14 Irma—1-0-0-0-1-0-3-0-5

Thirty-eight years ago, and shortly after Dr. Leves' death, his belief in the benefits of outdoor life. Mr. Summer, a native of New York City, established his boys' camp on Lake Champlain. Some good men and women of that day held up their hands in holy horror. The boys would get wet! They would be exposed to "night air" which everybody knew was deadly poison. They were quite sure that sleeping in draughty tents would kill the boys or at least the boys would return helpless invalids. It was an innovation for those boys, and the average mother would about as soon have exposed her boy to scarlet fever or small pox as to have them sleep in a tent. But "Chief" Dudley in founding the first organized boys' camp in America proved that sleeping in tents did not kill boys. On the contrary, the boys thrived in his camp and grew strong and healthy.

To-day there are hundreds of thousands of happy boys and girls finding keen enjoyment and profiting by this somewhat modern institution known as the "Summer Camp."

Nature has man-lessons which both boys and school-rooms fail to teach. The teacher who will go to camp with his boys must, in order to be successful, lead in the play and games, swim tramp, paddle and study nature rather as a big brother than as an instructor. He must enthrall the boys and gain their confidence and affection as a far greater degree than is possible in the day school. He is in camp.

The daily program at Clear Lake camp will be as follows: 7 a.m.—Rising call. Setting up exercises, cleaning teeth, morning dip.

7:45—Flag raising; "O Canada". 7:45—Bible.

8:15 to 8:35—Morning chapel, scripture, comment, prayer.

8:35 to 9:00—Duty period, bedding out to air, etc.

9:00 to 10:00—Last activity period; athletics, running, jumping, throwing, etc.

11:00 to 11:30—Instruction period; beginners swimming and life saving.

11:30 to 12:00—Swim period, 12:30—Dinner.

1:00 to 2:00—Rest period; story telling, health talks, etc.

2:00 to 4:30—Afternoon program; hikes, athletic meets, wood craft games, tournaments, camp-craft tests.

4:30—Swim period; instruction for beginners.

5:30—Supper.

6:30 to 8:00—Recreation; baseball games, etc.

8:00 to 9:30—Evening program; camp fires, stunt nights, entertainers tests, group games, life work talks, etc.

9:30—All in tents; family prayers, private devotions.

10:00—Lights out; all quiet until reveille.

The supervision of the camp will be under experienced leaders who will act as instructors in the various activities. Any boy willfully breaking the rules of the camp will be immediately sent home. Every boy will be not only assured of a good time but a healthy, same and instructive training as well. The cost of the camp will be announced as soon as possible. It will be between fifty and seventy-five cents per day. It will be open to every boy twelve years of age or over in the Chauvin Edgerton, Wainwright, and Irma districts. Parents whose boys are particularly urged to make an effort to have their boys attend. The value of such an experience to a rural boy is inestimable. Address all enquiries and applications to J. R. Love, Irma Alta, Camp Director. See next weeks paper for further information.

Complete change of program on Friday and Saturday. Viagraph Feature Service will be installed, including their latest and best serial entitled "Breaking Through," the first episode of this new serial will be shown on Friday and Saturday next week.

EDGERTON ECHOS

Mr Alex Jackson was a visitor to Wainwright last week.

Mr James Sawyer and son are installing a Radio phone and the receiving wires are erected over the pool room.

Mr Bradley Hunt of Dolcy was a passenger on the east bound train, leaving for Michigan.

It is reported that there was an oil strike at the Imperial Oil Well Pabyan this morning.

CO-OPERATIVE SHOP.

PING OF CATTLE

The Wainwright local of the U.F.A. have made arrangements to ship monthly cars of mixed livestock. The next car will be shipped within 10 days. Any farmer having livestock on hand to ship may get full information by phoning J. E. Hill, president. Save money! Get full value for your stock!

## Heals Inflamed Nostrils, Stops Catarrhal Discharge, Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhose has upon Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it every day. No nasty medicine to take—you just breathe in the balsamic vapor, the healing essence of Catarrhose and feel better at once. Catarrhose is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhose will reach it. You can keep free from coughs, colds, bronchitis and all the like by using Catarrhose. Two months treatment One Dollar, small size 50c. Dealers everywhere, or the Catarrhose Co., Montreal.

## The Fearless Lovers

—BY—  
ARTHUR APPLIN

Published by Special Arrangement  
with Ward, Lock & Co., Limited,  
London and Melbourne.

(Continued)

Ambition stirred him, and with it instinct warned him he would have a long and strenuous fight to obtain his desires. The little town lying far below, level-like, represented the world. But it was not that on which his heart was set. He wanted the mountains with their romance, the valleys with their wealth and the forests with their mystery—he wanted those as the setting for the jewel of his life—Daphne.

How easily he might have gone through life without ever having entered Parliament, made a successful career, married conventionally, lived comfortably, died happily, and missed the greatest gift life has to offer mankind: a gift so great that half the world would refuse to believe in its existence, preferring the mess of porridge they can buy with a bank note to the divine passion which demands in payment the Crown, men call Ambition, to be laid at Love's feet.

### CHAPTER V.

For three days it rained. The first day Edward went fishing as usual, but the river though high, was still low and he could only find a trout or two. The second day it was in spite, tearing over the boulders and running red in deep pools. Flashing out of the question, of course, and as little chance of seeing Daphne or catching a salmon.

Edward took long walks; brilliant as his dress, his hair, his eyes, his smile, he was quite happy to be alone to dream, though on the morning of the fourth day he realised how empty life seemed without Daphne.

Hilbert she had really filled every hour of his day. For there had been expectation, generally realisation, and always contemplation of the wonderful moments spent in her company.

Though the weather cleared, and the sun shone fitfully through driving clouds, yet the river was not fit to fish. The worst of it was when it began to rain, it probably in eight or ten hours' time, it would be the bookmaker himself he would most likely be wading waist deep in the water and not Daphne.

Now when a man is wading waist deep in heavy water after a salmon it is not the ideal moment for another man to tell him he is after his daughter. Nevertheless on Friday morning Edward ordered a specially nice luncheon to be prepared and an extra allowance of tea and taking his rod he made his way to the upper reaches of the water where he had a right to fish.

The water was in perfect condition, still very high, but a lovely colour. Just the sort of day, Edward felt, to bring out the rich and lazy type of sportsman who would not be bothered by a fly unless he was certain of success.

**Nervous  
Breakdown**

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least noise would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect. A friend advised the use of Dr. Chase's Nerve Food and I was truly surprised to find the great benefits received. There was a marked change before I had finished the second box and I was able to go to work. My nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the same permanent relief it has given me."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Dr. H. H. Johnston

salmon making its way up the river. It was like a challenge. They both saw it at the same time.

With a quick, deliberate movement born of desperation Daphne faced the bank and took a step forward. Luck was with her and she felt her soft gravel beneath her feet and was out of danger. Then with a little contemptuous laugh she began to wade down stream again until she was some forty yards above the point where the fish had moved. She began to cast, edging her way slowly towards the centre of the stream.

Edward had jumped to his feet. As soon as he realised her intention he flung himself on the ground again and began to pull off his waders. Daphne had got back her self-control now; still further and further she pushed out into the stream. Once again the water closed in on her. Edward knew that just beyond the point where she stood the water would be ten feet or more in flood, probably twelve or thirteen.

He was a speaking trumpet of his hands and ran along the edge of the water shouting to her. Suddenly he heard the river, suddenly he heard the river, suddenly he heard the river.

The next moment he saw the water swirling under her arm. The rod was jerked out of his hands and he went up. She turned round, once, twice, bobbed up and down like a cork. Then he saw her go under.

For a moment her red dam of hair floated in the air, then it seemed to remain stationary; then there was nothing.

As he plunged forward he flung off his coat and waders. He let the stream carry him down to the point where she had disappeared. He knew the odds were against her rising again with her waders full of water and the heavy brogues holding her down.

Pacing the current he forced himself under. He had always felt glad of his physical well-being, but he had been so conscious of his strength and power, so conscious of his strength and power, so conscious of his strength and power.

He felt something yielding touch him and he knew that she was still there. He saw something red and two white arms.

The next instant he gripped the waist of Daphne's waders tightly and swam steadily with the stream.

(To be continued)

**Weakly Water Receives Tips**

Man Working on Dining Car Owns \$100,000 Farm

When the diners on the Pioneer Limited of the Chicago, Milwaukee and St. Paul Railway, the Canadian Pacific Railway and the Canadian National Railway have been evolved by the Western Canada Colonization Association.

This plan is the product of many months of study and of consultation with the best available Canadian, American, British and European immigrant experts, with Canadian and American land men, with the heads of banking, trust, loan and mortgage corporations in the West, and with the heads of the various government departments in several provinces.

A delegation representing the Western Canada Colonization Association will confer with Federal officials and the chief executives of the railway companies for the purpose of elaborating the necessary machinery and bringing it into effective operation.

The plan contemplates the settlement within ten years, at an expenditure of approximately \$30,000,000, of 100,000 acres of land in the three prairie provinces and of vacant areas and unoccupied farms in Ontario, Quebec, the eastern maritime provinces and British Columbia.

The proposed national organization will bring into the country thousands of expert agriculturists and agricultural laborers from Great Britain, the United States and other approved countries.

**May Happen to Best of Men**

A man may be a kind husband and loving father and give all his thought to his family and then be come interested in an automobile and thereafter think only of roads—Eric Daily Times.

**Spent your money at home, then by helping your own town and local merchants.**

**CORNS**

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn goes up and you lift it right off with your fingers!

Drop a little "Freezone" on a corn, instantly that corn goes up and you lift it right off with your fingers!

Drop a little "Freezone" on a corn, instantly that corn goes up and you lift it right off with your fingers!

Drop a little "Freezone" on a corn, instantly that corn goes up and you lift it right off with your fingers!

Drop a little "Freezone" on a corn, instantly that corn goes up and you lift it right off with your fingers!

Drop a little "Freezone" on a corn, instantly that corn goes up and you lift it right off with your fingers!

Stella Tells Her Brownies a Story.

ELL us a make believe story, Stella, dear," Prince begged the Wishing Fairy one day when he and the other three Brownies were grouped around her in the warm sunshine, "and make it up."

"What shall it be about?" she asked, with a smile. "Oh, anything!" answered Prince. "Anything you like." "There was a long time while the little Fairy collected her thoughts, and the four Brownies wriggled around and arranged themselves in comfortable positions. At last she began.

"Once upon a time," she said, "there lived a very wicked Prince in an enormous castle which was completely surrounded by a moat."

"What a moat!" Snookums asked. "A deep water-filled ditch. It encircled the castle, cutting it off from the mainland. A drawbridge was let down from the gate of the castle whenever anyone wished to leave or enter it. In olden times almost all castles had moats, for in those days there was even more lawlessness than now amongst humans. Well, to go back to our story, the wicked Prince Carl (for that was his name) had a wife, the Princess Ella, who was just as bad as he, would be saying a lot."

"Goodness," exclaimed Kinkajou. "How were they bad? What did they do?" "There was nothing in the way of wickedness they wouldn't do," Stella answered. "Lies, theft and even murder meant nothing to them. Prince Carl used to arm his followers with long lances (in those days there were no firearms) and they would ride forth to plunder and rob, so that before long his castle was filled with countless treasure and gold."

"It seems very terrible," remarked Snookums, "and I should think that if anyone wanted to live in a castle like that, they would have to be very wicked indeed." "Yes, they would," Prince Carl said, "but I don't think I would be so wicked as to do that. I am a good man, and I would never harm anyone. I would only want to live in a castle like that, and I would want to be very wicked indeed."

"One day an old man, bent and worn, who had ridden for many miles, came to the castle. They both offered him every kindness, and he thanked them and told them that his name was the old man, and he was a very old man. He also added that in the morning he would repay them in a way they did not expect. They glanced at one another as though to say there was no meaning for the night, and left him for the night. After several hours, when they felt sure he was sound asleep, they returned to kill him and to take the sack."

"For, of course," she said, "they thought it was full of gold jewels." "The old man, however, met them at the door of his room with upraised hand and it seemed as though he were endeavoring to say something, but he was so old and so weak and so faint that they were powerless to move, when suddenly—"

Next week's story will tell what happened and how this really is a story about two black swans.

Copyright, 1923

**New Land Settlement Plan**

Settlement of 100,000 Acres in Prairie Provinces Proposed

A comprehensive land settlement plan, embracing every province in the Dominion and co-ordinating the colonization activities of the Federal and Provincial Governments, the Canadian Pacific Railway and the Canadian National Railway has been evolved by the Western Canada Colonization Association.

This plan is the product of many months of study and of consultation with the best available Canadian, American, British and European immigrant experts, with Canadian and American land men, with the heads of banking, trust, loan and mortgage corporations in the West, and with the heads of the various government departments in several provinces.

A delegation representing the Western Canada Colonization Association will confer with Federal officials and the chief executives of the railway companies for the purpose of elaborating the necessary machinery and bringing it into effective operation.

The plan contemplates the settlement within ten years, at an expenditure of approximately \$30,000,000, of 100,000 acres of land in the three prairie provinces and of vacant areas and unoccupied farms in Ontario, Quebec, the eastern maritime provinces and British Columbia.

The proposed national organization will bring into the country thousands of expert agriculturists and agricultural laborers from Great Britain, the United States and other approved countries.

**Liner Hears Half World**

Static conditions were so perfect that the wireless operator on the Lamport & Holt liner Vauban picked up messages sent from the Philippines, the ship's officers reported when the liner arrived at Hoboken from South American ports. While in Buenos Aires the wireless operator picked up messages from New York to ships in the Atlantic and also messages from the British station at Lelid, Oxfordshire, England.

**Saskatchewan's Butter Output**

Figures compiled covering the year 1921 show that in that period 7,035,000 pounds of creamy butter were manufactured in Saskatchewan, of which 78.3 per cent was graded by the official Government graders. Butter grading depots are maintained at Regina and Saskatoon, and assure for Saskatchewan butter high standard of quality and the best market prices.

**Drop in B.C. Fisheries Production**

Total value of the fisheries production of British Columbia for 1921 was \$15,255,450, as compared with \$22,259,101 in 1920, according to returns published by the Dominion Bureau of Statistics in conjunction with the Department of Marine and Fisheries.

This is the smallest return since 1914, the peak being reached in 1915, when the total was over \$27,000,000.

**Grain Elevators in West**

In 1910, when the Natural Resources Intelligence Branch of the Department of the Interior published a map showing the location of grain elevators in Western Canada there were 1,760 elevators in the three prairie provinces, with an aggregate capacity of 53,979,400 bushels. To-day there are 3,840 elevators, with a total capacity of 128,482,420 bushels.

It is surprising to learn that charlottes worked on the principle of the latimeter were used in China in the fourth century.

### Memorial Cross Issue Extended

Wives and Mothers of Deceased Soldiers to Receive Medal Regardless of Date of Death

The Memorial Cross which heretofore has been available only to the wives and mothers of soldiers whose deaths resulted from active service prior to November 11, 1920, will now be issued in respect of any man who dies as the result of active service, regardless of the date of death.

A militia order has just been issued to this effect as the result of reports from the Ontario Provincial Command, G.W.V.A., strongly supported by Capt. H. A. Chadwick of the Records Branch, Department of National Defence.

The issue of the Memorial Cross in the first instance was prompted by the desire of the nation to provide some tangible recognition of the sacrifice of mothers who save their sons in the defence of the nation. It was also made available to the wives of married deceased soldiers, but the issue was contingent upon death having occurred within two years of the signing of the Armistice. The new regulations make provision for the issue of the Cross to those eligible on account of deaths which have occurred since November 11, 1920, and which were attributable to war service, and for such deaths that may occur in future.

The authorities have no means of securing accurate information concerning post-war deaths so it is necessary for those concerned to make application to the department for the issue of the medal. In the case of soldiers who married after enlistment, and whose deaths occurred prior to or after discharge, both the wife and the mother are eligible to receive the Memorial Cross. G.W.V.A. branches will, in the past, provide every assistance necessary. In this and other respects, to the relatives of deceased soldiers.

**Ancient Rulers of Japan**

The Oldest Reigning Royal Family in the World

It is the proud boast of the Japanese, that theirs is the oldest reigning Royal family in the world. Legend has it that the Imperial dynasty, after endless ages in Paradise, began its earthly reign in the seventh century before Christ, and though authentic records do not date earlier than the sixth century of our era, it is certain that the present dynasty was in power at the dawn of history in the Japanese archipelago. It is little wonder, therefore, that the Mikados' subjects have invested them with the attributes of divinity.

**Blaming Moving Pictures**

The cinematograph bids fair to become the whipping boy of our modern civilization. Whenever some wicked or merely naughty boy does something wrong he is always prone to say that "it is the fault of the pictures." This has just happened again in the alleged confession of murder.

It is not at all extremely unfair on "the movies." Though the films may do harm sometimes, they do good very often. An attempt to saddle the cinema with a sole or even a serious responsibility for juvenile crime is preposterous.—The London Daily Express.

**Traffic Manners**

Our notion of perfect traffic manners is exemplified by the London Hansom driver, when a pedestrian stopped and stood directly in the way of the cab horse, leaned over and asked: "Excuse me, sir, may I ask what are your plans?"—New York Morning Telegraph.

**The Right Man**

"Strange you should come to me about your husband, madam. I'm a horse doctor."

"That's all right. He's a chronic kicker."

Where the "It" Have It

An American advertisement spells the word "huddle" as "huddle." This must have been an accident, because the elimination of the "l" is not really an American tendency.

**MURINE EYES**

WRITE FOR FREE EYE BOOK—MURINE CO. CHICAGO

**Genuine**

**BAYER**

**Aspirin**

WARNING! Always say "Bayer" when you buy Aspirin.

Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Neuralgia Rheumatism  
Toothache Neuritis Lumbago Pain! Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—All drug stores.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoclonalacetate of Salicylic Acid. While it is well known that Aspirin was the first synthetic drug, the public attention is called to the fact that the Tablets of Bayer Aspirin will be stamped with that registered trade mark, the "Bayer Cross."

## The Liver Is the Road to Health

If the liver is right the whole system is better. Dr. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and re-leave constipation, stomach trouble, indigestion, loss of appetite, sick headache and dizziness. Purely vegetable. You need them.

## WORLD HAPPENINGS BRIEFLY TOLD

The Shantung agreement negotiated with China at the Washington conference has been ratified by Japan.

Thomas Draper, Petrolia, Ont., has leased 1,920 acres of farmland property in Alberta from the Federal Government.

The Polish Diet has enacted a law requiring an annual vacation of two weeks with pay for all industrial workers.

The police commission has refused to revoke the order for the strict enforcement of the Lord's Day Act in Victoria.

A special despatch from Moscow announces the appointment of Leonid Krasin, Russian Bolshevik representative in London, as Soviet ambassador to Germany.

Part of early Nelson, B.C., disappeared in flames when the old Nelson House and two adjoining frame buildings were wiped out, and two others were damaged at a total loss of \$20,000.

The ambassadors council has ordered the Bulgarian Government to proceed immediately with the disarmament of the Wrangel troops on Bulgarian territory and the dissolution of their military organizations.

Italy has agreed to restore to Germany for \$90,000 lire all German property in Italy, seized during the war except some which has already been converted for public utility, says a despatch to the London Times from Rome.

It is announced that from April 1, 1921, to March 31, 1922, \$3,880,000 has been collected under the German Reparations Act, of which \$2,104,000 has been paid to the exchequer on account of the costs of the British army of occupation. The balance of \$2,676,000 is in the hands of the Paymaster-General.

The first Jewish municipal bond issue in history, amounting to \$250,000, has been authorized by the Palestine Government for the township of Tel-Aviv, the self-contained Jewish municipality near Jaffa. The obligations are secured by taxation, the bonds being issued at 6 per cent, repayable in 20 years.

The Church of Scotland Assembly passed a resolution to the effect that while appreciating the services of the Anglican bishops who sit in the House of Lords, a wider representation of Christian views was necessary, and the Church of Scotland and other churches ought to be represented in the reformed second chamber.

## Quick Work in Germany

Tree Being Transformed Into Newspaper Within a Single Day

Trees on which birds warbled, their morning songs are turned into newspaper and sold as midday editions on the same day in certain towns of the Harz district, says the Papierfabrikant, the leading German papermakers' organ.

The exact time taken in the process is 2 hours 25 minutes. The trees were felled at 7:35 a.m., pulped and turned into paper by 9:35, rushed to the printing office and at 11 o'clock newspaper boys were crying the local sheet on the streets.

## CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving their root in indigestion. Concerning them Mrs. Joe Lunette, immaculate suburban dweller, writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

**Soldier Settlers Increase Acreage**  
Last year's crop acreage put in by soldier settlers under the Soldier Settlement Board will be increased this year by more than 40,000 acres, according to the District Superintendent of the Board. The acreage tilled last year by soldier settlers was 120,000 acres, and this year it is expected to exceed 160,000 acres.

**Miller's Worm-Powders** are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, making the child healthy, fat and plump, and ensuring immunity from further disorders from such a cause.

**Silver Fox Pelts**  
Of the total value of silver fox pelts produced in Canada in 1921, which amounted to \$432,150, Prince Edward Island produced \$243,694, or nearly 60 per cent. The value of the live foxes exported from Canada in 1921 was \$277,182.

As a verminicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

**Britain Pays U.S. \$13,115,000**  
Great Britain paid on May 15 to the U.S. treasury \$13,115,000 of principal and interest on the debt of \$125,000,000 incurred during the war for silver purchased under the Pittman Act. This payment makes a total of \$61,000,000, or the liquidation of half of the obligation of Great Britain. The debt, which is being paid in semi-annual installments, will be entirely liquidated in 1924.

In certain parts of Russia the mail is carried by butterflies. This animal is picked for the service because of its very flat feet, which enables him to travel where horses would sink.

## Beecham's Pills Keep you fit

Nothing New in Liner Luxury

Inventiveness of Designer Seems to Have Reached Limit

The steamer *Majestic* of the White Star Line, is the largest ship in the world, both in lines and tonnage. Her length is 865 feet, makes her 6 feet longer than the *Leviathan* and her tonnage is 1,700 greater than that of the *Leviathan*.

The most remarkable thing about this new giantess, however, is something that is negative. According to the dispatches from the other side, the *Majestic*, which is the first great passenger steamer built since the end of the war, offers little new in luxury. She has everything that the imagination and ingenuity of man can provide for this season, but no great innovation can be inventoried. Suites de luxe, swimming pools, gymnasiums—all these she has, but all these are familiar to the traveler who has used any one of the finest half dozen of the liners.

Has the inventiveness of the steamship designer come to the end of the road? If there were anything new the *Majestic* should wear it, for in her are the British pride of ownership and the German pride of workmanship; for the *Majestic*, when her keel was laid, eight years ago, was intended to be the *Bismarck*. A ship like this boasts everything in the way of comfort and pleasure that its size permits, nothing seems lacking except a regulation baseball field and golf links.

Speed used to be the constantly improving quality of ocean steamers, but the builders cannot hope to get much more out of the engines of the floating hotels than the twenty-five knots shown by the *Majestic* in her trials. "For speed we look to the airplanes," the Santa Maria roared up from Havana to New York the other day in seventeen and a half hours, which is three or four times as fast as any steamship could make the journey.

And, after all, even if it could be done, what would be the joy of steaming to Europe in a day or two. Nobody can learn shuttleboard thoroughly in such a short time.—From the New York Herald.

**Eastern Syndicate Leases Oil Lands**  
Twenty-five hundred acres of land at Pouce Coupe have been secured under lease by an eastern syndicate, incorporated under the laws of Quebec. It is said that the syndicate is a close corporation, and that extensive development work will be undertaken during the coming season.

**Rush Work on Irrigation System**  
Two-thirds of the excavation work on the Lethbridge Northern Irrigation ditch has been completed. About 1,400 men and 800 teams are now at work along the whole project rushing it to completion.

Cheeses more than a century old are served by some of the wealthy Swiss families on the most important occasions.

Sixty per cent. of the men are bald at 55, but only 1 per cent. of the women.

## Feathers, Fringe and a Bag to Match Milady's Chapeau!

**Frings!** There is nothing new about fringes. It has been used in every way and in every place under the sartorial sun, but so firm a place has it won in our affections that we must have at least a bit of it on some garment in our wardrobe. On the overblouse of spring it lends an attractive finish to the bottom, as well as to the sleeves. It gives a suggestion of grace to whatever it embellishes.

And feathers! As elaboration their use dates back no further than the Garden of Eden, but Milady's 1921 affects them as often as she possibly can and loves them just as dearly as did Eve.

Neither is there anything particularly novel in the matching of the hat and the bag, but it is a pleasing fancy and one which is revived annually when March goes out like a lamb.

## A Few of the World's Lofty Peaks

Some of Nature's Most Gigantic Works Along Line of G.P.R.

The Canadian Pacific Rockies comprise some of Nature's most gigantic works. This can be better visualized when it is said that in the various mountain ranges that make up the Canadian Pacific Rockies, there are, according to Government measurement, no less than 593 mountain peaks over 5,000 feet in height above sea level. The Government list include only those peaks which bear names, and it does not pretend to include the innumerable mountains that have not been named or measured. Of those listed there are 512 over 7,000 feet, 405 over 8,000 feet, 291 over 9,000 feet, 147 over 10,000 feet, 44 over 11,000 feet, 2 over 12,000 feet and 1 over 13,000 feet.

A great many of these majestic peaks are visible from the train, while others may be explored at leisure during the stay at the many beautiful resorts such as Banff, Lake Louise and Glacier.

Low summer tourist tickets are on sale daily to Vancouver, Victoria and other Pacific Coast points, which allow stopover at any or all of the mountain resorts.

The trip through the Canadian Pacific Rockies to the Pacific Coast ranks among the finest in the world, with nature at her best during the summer months.

Four trans-continental trains each way daily will be operated by the Canadian Pacific Railway this summer through the Rockies, each equipped with open top observation cars. This service will include Canada's finest and fastest trans-continental train "The Trans-Canada Limited."

## For Normal Conditions

A Policy of Mutual Confidence and Cooperation is Necessary

The Calgary Board of Trade has passed a resolution, which, directed of its whereabouts and, therefore, carries a plain commonsense message for us all. It asserts that a return to normal is the aim of all citizens and governments, a condition which will be the result of achievement rather than automatic condition bound to come if we wait long enough for it. Economy in both public and private expenditures is the road to normal conditions.

The part we like best about the resolution is in which says:

"And be it further resolved, that in the opinion of the Board the return to normal, prosperous conditions at an early date also depends upon faith in our fellow citizens, and in our institutions and Governments, and for the attainment of this object the Board accepts and earnestly urges that a policy of mutual confidence and co-operation be alike advocated and encouraged by all so as to stimulate individual activity and lead to co-ordination of effort for the achievement of general prosperity."

The "every man for himself" idea is a miserable failure in these days. Just as soon as we realize that we have a very definite interest in the welfare of the other fellow we shall be on the high road to real progress. Every man has his place in the scheme of things. If you by selfishness, ignore your fellow citizen, be sure that his failure will react on your progress in life.—Canadian Finance.

## HEART WOULD BEAT LIKE A TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a pain catches you in the region of the heart, now and then your heart skips beats, palpitations, throbs, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, sinking sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as—

**MILBURN'S HEART AND NERVE PILLS.**

Mrs. Chadwick, Leith, Ont., writes: "I had palpitation of the heart, the least exercise, such as going up stairs or up a hill, my heart would beat like a trip-hammer and at times I was dizzy-headed and had a sinking sensation as if my time were near. A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used I began to improve. In all I took six boxes, and now although in my 68th year I feel like a young girl; no dizziness or heart-thumping, and can walk miles without fatigue. At time of sickness I weighed 130 lbs. now I weigh 150."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Canal to be Tunnelled

The great military base at Kantara, from which the British built a military railway through the desert to Palestine, is being dismantled. The line, of course, is permanent. During the war the Suez Canal was crossed by a large swing bridge, which is now to be dismantled. Connection between the Egyptian railways and the new line to Palestine will be maintained by means of a trolley line, which will be built below the Suez Canal.

Original Portrait of Washington

The original portrait of George Washington by Gilbert Stuart has been discovered at Lexington, Va., by Arthur Dawson, official portrait painter at West Point. It was announced recently. The picture is said to be worth between \$75,000 and \$100,000.

Telephones in the United States average one to every eight persons or every two families.

In twenty dollar gold pieces one billion dollars if laid flat would form a line 1,000 miles long.

Strikes fomented by the new labor unions are becoming common in Korea.

A modern battleship uses about 8,000 gallons of fresh water daily.

MINARD'S LINIMENT

Minard's Liniment Lumberman's Friend

## SUNDAY SCHOOL LESSON

LESSON FOR JUNE 4

## JEHOIAKIM TRIES TO DESTROY GOD'S WORD

I. The Book Being Written (vv. 1-4).  
1. The Time of (v. 1). In the fourth year of Jehoiakim, Jeremiah had been exercising the prophetic ministry some thirty years.

2. Against Whom Spoken (v. 2). They were directed against Israel, Judah and all the nations.

3. The Purpose of (v. 3). The grand object of the Lord in sending this message by the prophet was Judah's repentance.

Method of (v. 4). Jeremiah dictated the words of the Lord to Baruch the Scribe, who wrote them upon a roll of a book.

II. The Book Being Read (vv. 5-21).  
Jeremiah was unable to speak the message of the Lord to the people, as he was "shut up" (v. 3). "Shut up" most likely means a royal ban against Jeremiah's proclamation of God's Word to the people or against his entering the temple.

1. To the People (vv. 6-10). The occasion which brought the people together was a day of fasting (v. 6), because of the threatening of the Babylonians. Jeremiah directed Baruch to read to the people the words of the Lord which he had dictated to him, with the hope that the people would present their supplication before the Lord and return every one from his evil way.

2. To the Princes (vv. 11-16). While the reading of the book unto the people seemed created no great impression, yet Michael was so deeply moved that he went to the Scribe's chamber where the princes were assembled and declared unto them all the words which he had heard Baruch read (v. 17). To this he replied that he had written in the book the words which Jeremiah had dictated to him. (3) Their concern for the safety of Jeremiah and Baruch (v. 19). They were instructed to hide themselves from man's sight.

3. To the King (vv. 20, 21). The princes regarded the words of the Lord to be of such importance that they should be read in the hearing of the king, for he was mainly involved in the judgments pronounced. Upon their report of the matter to the king, he had Jehoiakim bring the roll and read it to him in the presence of the princes.

III. The King Destroying the Roll (vv. 22-28).  
Instead of becoming penitent and afraid he became enraged and cut the roll by leaf and threw it into the fire until it was consumed. This he did against the intercession of some of the princes.

IV. The Roll Rewritten (vv. 27-32).  
The burnt roll was reproduced by the command of the Lord, and many like the king were unto them. We should learn from this incident—

1. The Indestructibility of God's Word. Men may cut it to pieces and burn it, but the Word of God shall stand forever. It comes to light again with words which are as plain and unchangeable as the stars.

2. The reason men attempt to destroy God's Word. It is because of the authoritative rebuke of their sins. The Bible arraigns man for his pride and wickedness and accuses God's sovereign power over man and his demand for a personal surrender unto him and worship of him.

3. The Method of Attempted Destruction of God's Word. It was partly by part. "When" Jehoiakim had read three or four leaves he cut it with a penknife. The rationalist today cuts out the Biblical conception of God as a being whose essential nature demands punishment of sin; therefore he cuts out the Bible doctrine of man as created of God in His Likeness and Image. Instead of that he makes man a product of evolution; therefore he explains away the fall of man.

Marquis Calme Baby's Cries  
The Marquis of Aberdeen was rudely interrupted during an address to the Scottish Mothers Union in Ellen, Aberdeenshire, by a crying baby. The crowd begged that the outburst grow, everybody wondering who would be the first to pick it up because he couldn't make himself heard.

At length he stepped from the platform, took the child from his mother's arms, carried it to and fro, cooed and caressed it, quelled the storm and returned the child to his mother. He remounted the platform and continued his address in peace.

Remarkable Generosity  
Sandy, the farmer, had been staying with some friends for about a month, and while he and his host were out for a walk one day they called at a wayside inn for a drink. As his host was about to pay for it Sandy stopped him.

"Na, na," he said. "I'll not allow it. I've been keeping me in everything at yer house for a month, and ye've treated me to 'thairts, and cab'aret, and paid for all the drink. I'll tell ye, I'll ha na na of it. We'll toss for this one."

Minard's Liniment Lumberman's Friend

W. N. U. 1423

## Mrs. MARGUERITE K. O'LEARY, of Reading, Pa., who says she has gained eight pounds and can hardly find words to express her praise for Tanlac for the good the medicine did her.

"I am so happy over what Tanlac has done for me I can hardly find words to express my praise," said Miss Marguerite K. O'Leary, who lives with her parents at 1223 Chestnut St., Reading, Pa. "I wasn't exactly what would be called sick, but for a year I had been all run down and as well as I ever did in my life. It is simply wonderful that medicine could make such a big change in any one. My friends and neighbors are surprised when they see me now, and so wonder, for I look like a different person. Tanlac is grand and I never intend to miss a chance to say a good word about it."

Tanlac is sold by all good druggists.

Polish Farmers Restoring Land

Over One Million Acres Were Laid Waste by War

Polish farmers restored 50 per cent. of their war devastated land to cultivation last year, the ministry of agriculture reports. In 1920 Poland had 1,200,000 acres of tillable land laid waste by war and resulting neglect. By the end of 1921 this figure was reduced to 600,000 acres.

Plows, tractors and other farm implements purchased in America have played a large part in this restoration of Polish farm lands.

Simple and Sure.—Dr. Thomson's Eucalypti Oil is so simple in application that a child can understand the instructions. Used as a liniment, the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unchangeable that they are readily understood by young or old.

Earnings of Saskatchewan Telephones  
The total net earnings of the Saskatchewan provincial telephones in 1921 was \$1,964,495. The total pole mileage of the provincial system is now 6,000, and the wire mileage 21,500.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

Tree Pollen Carries Far

Wind-blown pollen (sugar rain). It is known to be carried far. The Swedish experiment station reports a quite extensive rain of tree pollen on two free ships, 20 and 37 miles from shore, and the pollen of the alga is known to have been carried even as far as 200 miles.

## Here's a real treasure from Nature's storehouse

GOOD old Mother Nature has placed in wheat and barley the wonderful food properties which build and sustain life and health.

Many so-called "refined" foods are robbed of vital elements which the body needs.

Grape-Nuts—that famous wheat and barley food—brings you all the natural goodness of the grains in perfected form, with a crispness and flavor that charm the appetite.

You will find Grape-Nuts an ideal dish for breakfast or supper-time. Ready to serve from the package, with cream or good milk.

Order Grape-Nuts from your grocer today.

Grape-Nuts—the Body Builder

### MUNICIPAL HAIL INSURANCE COMPANY PLANS FOR 1922

Mr. E. H. Malcolm, of the Provincial Hail Insurance Board writes as follows:

The newspaper reports of the last annual meeting of the Hail Insurance District, held in Calgary in March last, gave a very incorrect impression of the financial condition of the Hail Insurance District. One report was to the effect that the Board would have to reduce its liabilities before it could resume business. Another stated that the deficit on last year's operations was \$1,000,000. Both these statements are entirely incorrect and very misleading.

The ability to "resume business" was never thought of, much less discussed, for the very excellent reason, that business has not been suspended, nor is there any necessity or intention of suspending it. The damage by hail in 1921 was almost double the average of the last nine years and 50 percent greater than the previous high record made in 1916. In spite of the record-breaking amount of losses the Municipal Hail Insurance plan functioned without hitch and is here to stay. The actual deficit for last year was \$274,742.96. This deficit was paid for out of the surplus of the two previous years and will have no effect on the rate to be set this year. This year, rate will depend on the amount of losses for this year, and on that alone.

I have taken the liberty to write you this letter because some of your readers, on account of the unfavorable impression they had received, might think it was not safe to insure again this year under the municipal plan.

The Board wishes to assure every reader of this paper that the necessary credit for this year's business has already been arranged for, and the Board is better prepared than ever to give their usual fair adjustment of losses and prompt payment of awards. They hope to be able to do even a little better this year than in previous years.

### A FOUR CENT EDITOR

From time to time we are asked if the price of the Star is not coming down and from time to time we reply—NO.

We base our reply on experience of the costs of the production and proper distribution of same.

Seven years ago all weekly papers sold for \$1.00 per year. This rate had been in force since the early days despite advancing costs, and the country editors made no money and were often considered of little account. Each person taking the paper contributed 2c per week to pay the editor. He was a 2c editor.

Later then a great deal of fear and trembling, many raised the rate to \$1.50. This made a 3c

editor. Since then the 200 rate became common, and we have the 4c editor.

The editor of the Star over two years ago, felt that the proportion of cost to the subscribers was too low and he raised the rate to \$2.00 and became a 5c editor.

An the subscription list did not materially suffer, in fact new subscribers are regularly enrolled and still they come.

When it is considered that each subscriber only pays 4c per week for the services of a skilled journalist and honest news gathering it must be admitted that you have a cheap editor. In fact total returns do not pay the salary due his position. But when he is not considered worth 4c, per week he will try some other occupation where he can earn more money.

\$2.00 per year is a little under 4c, per week per copy of the Star and surely no one grudges 4c, per week for their home paper.

So far as the Star is concerned the 4c editor is going to be a fixture so long as the present ownership continues.

4c per week is all the salary we ask from each subscriber, and we know you would not seek to pay less than this for the service.

### COMMUNITY ORGANIZATION MOST EFFICIENT

Community organization is the most efficient and the most reasonable method of fighting any pest. It is community organization that enables armies to make progress and as long as the organization holds together success is assured. Any disruption in the organization spells failure and results can not be accomplished at any expense of money. Any fight carried on by individuals—acting as such is bound to cause a lot of wasted effort, and misapplied energy that can be avoided.

When the farmers in a community decide to organize they should make plans to include every farmer and land-owner in the district. One man who holds out in the community may be enough to upset the work of all the rest unless some drastic measures are taken. The present pest act provides for such measures and the elected leader should make every effort to see that they are enforced. The actions of the leader should be backed by every member of the organization as long as such actions are reasonable. The community organization should not be confined to the farmers but must include the business men in the towns and cities.

### A FABLE WITH A MORAL THERE'S MANY A SLIP

During the early years in the life of a certain Town, the Civic Fathers said unto the citizens:—"Along that road shall be cement walks, for business traffic; and along many of the residential avenues shall be pathways of wood." And so it was decided, and the work done. Then passed ten years, in which no further walks were laid. A decade of Spring and Autumn rains; ten lovely Summers; and as many visits from the Frost-Kings-Winter! So, here and there, at last, a tired plank gave way, and disappeared. The gaps were dangerous by night. And, finally, a citizen broke a limb in one of them. It cost that Town \$1500 to "mend" the damage. And then the gaps were quickly mended, too. Moral: "A nail in time will save nine."

The Very Rev. Bishop Lloyd, bishop of Saskatchewan, from Prince Albert, will be paying his parochial visit to Wainwright on July 11th, and as this is his first visit since his elevation to the bishopric no doubt his welcome will be royally celebrated.

We understand that Mr. R. Aykroyd, through his connections in the States, is receiving a great many inquiries about land in this district, and he expects many land seekers here during the coming season. Let 'em all come! They're welcome!

WAINWRIGHT, ALBERTA, JUNE 7th, 1922.

## PRACTICAL HOME LOYALTY

"Home loyalty" means in its practical application that you are a supporter of that people and the institutions of the home town.  
The merchant and the individual who sends his support to people outside his home town for supplies or work that might be got here or done here is not loyal to his town, but is disloyal to the extent that he is depriving the home town people of that by which they make their livelihood.

Loyalty to the home town "folks" in the final analysis means loyalty to oneself and his best interests, for it is by united effort and co-operation that the people of a town are able to live, and build up a community, as it is said, "we are all bound together in the bundle of life."

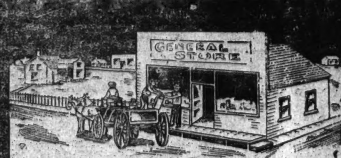

## THE FAITH OF THE FARMERS

The farmer is the real optimist. He plants in confidence and reaps what the elements provide, aided by his hard work. There is ever an element of chance. No matter how careful the preparation or how skilful the cultivation, the harvest depends largely on the rain and sunshine. Yet the world depends upon the farmer for its food. It is a rather startling fact, to which Russia gives painful evidence, that if the farmers all over the world would go on strike during the planting season, starvation would follow for the great majority of the population in the civilized countries within a few months. There is never a surplus of food that would tide the world over a twelve months. Agriculture is well said to be the basic industry, because all the population depend upon it for sustenance. That being the accepted fact, farming should be a profitable occupation, and whatever aid the governments can give in the way of legislation and assistance should be rendered for the safety of the world. Happily in Alberta total crop failure is unknown. While some crops may be scant, others are up to the average, and in this district we have learned the value of diversified farming. This spring the farmers are as busy planting for the autumn harvest despite the unfavorable market prices of a year ago. Conditions seem to be favorable for good yields this year. The faith of the farmer is the salvation of the world, and many the reward of the tillers of the soil be abundant this year, to bring the big wave of prosperity to all the people.

## MAKE YOUR OWN DESTINY

If you have been predicting failure, talking failure, dressing like a failure, appearing like one, going about among your fellows, complaining about your hard lot, the law will not pay you in success coin; because failure is what you are drawing to you, with your prediction of failure. The cosmic intelligence develops the seed you put into the great invisible cosmic soil. It does not change the character of the seed, and your harvest will correspond with what you have sown. If you have sown failure seed you will get a failure harvest. If you have sown discouragement seed, pessimistic seed, you will get a corresponding harvest. If you are sowing deception, sowing malice, hatred, greed, selfishness, contention, unkindness, and ingratitude, you will reap a harvest of these things. Whatever you sow will reproduce its kind; will come back to you whether you want it or not. It is pitiful to think that multitudes of God's children are struggling and striving and straining toward, living in poverty and wretchedness, because we are sowing the wrong kind of seed in the cosmic soil of the invisible which has no power to change the quality of our sowing. It would just as readily yield us wealth as poverty; but it cannot produce anything different from what we put into it. We build our world with our thought, and the reason why most of us have so little of the success we desire is due to the little care we take in sowing our thought seed. If you are disgruntled with life, dissatisfied with your half success, with mediocrity; if you haven't done the big things you were going to do, examine yourself thoroughly, my friend, look to your thought seed, for on them success or failure waits. You are a maker of destiny.

## Woodland Dairy's Newest Service

## More Money Less Trouble

Every Woodland Buying Station is now receiving Station. Our agent checks the new law cannot grade or label your cream, nor can he pay you for it, but he will be at his place of business every day to take the cream off your wagon and attend to all details of shipping. # Dunlop Double-Life, High-Mileage Cord and Fabric Tires Will Save You More Money Than Ever

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—tire quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like DUNLOP, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."

## Serious Fires Occur In Different Parts Of City Of Belfast

Belfast.—Tonight has been a night of fire in Belfast. A dozen outbreaks had been reported up to midnight. It is reported that the Model School, a free building in the Falls Road, was destroyed. Incendiary bombs were employed in starting the fire. Two attempts were made last week to burn the school.

The Falls Road Library also was set on fire during the night and to add to the sorrows of the authorities there was plenty of shooting in various sections of the city.

The Ulster Association has sent a message to Winston Spencer Churchill, Secretary for the Colonies, remarking that the Catholic Protestants Committee in its telegram to the secretary early in the week telling of the number of Catholics murdered, did not refer to the number of Protestants murdered.

Between May 23 and 26, the message says, ten Protestants were killed and several others threatened with death. The premises of 18 Protestant firms were set on fire.

Dublin.—Michael Collins, head of

the Provisional Government, has left for London. He was accompanied by William Cosgrove, Minister of Local Government in the Pail Eireann cabinet, and Denis O'Sullivan, Secretary of the Provisional Government.

It is supposed here that the main subject of today's discussion at London was the text of the free state constitution, which Arthur Griffith, the Dail President, took with him. This constitution must conform strictly to the terms of the Anglo-Irish treaty, and has been drafted with that object.

If the British ministers are satisfied with it, and learn that it is considered unlikely they will enter a quarrel with the Irish representatives because they made a pact with Eamon de Valera.

The view here among Sinn Féin of both wings is that the pact recently arrived at between Collins and de Valera is primarily a domestic matter designed to keep solid for the longest possible time all comrades of the Sinn Féin party lest control pass to other sections of Irish opinion identified in the past with a moderate policy.

## Inefficient Sea Power

London Telegraph Deplores Lack of Dominion Participation in Naval Matters

London.—The Daily Telegraph, in an editorial dealing with the Empire's naval position, asks what has happened regarding dominion participation in pursuance of the co-operation policies between Britain and the dominions as outlined at the meeting of premiers.

Supplying the answer, it says: "Nothing, and less than nothing." The Telegraph remarks that the baby navies of Australia and Canada will, in a few months, to all intents and purposes, cease to exist.

The newspaper continues: "In the view of a legitimate cry for economy in this country our squadrons are being further cut down in European waters. The time is not far distant when we shall be an inefficient power by sea and the Washington standard will seemingly be a mere scrap of paper. It is a small matter to Canada looking over the Atlantic and the Pacific and does it suggest no reflection to Australia, New Zealand and South Africa? By joint effort they could, at least, see that the Washington standard accepted by Great Britain and the dominions is maintained."

## Has Faith in Canada

Duke of Devonshire is Complimentary to People of Dominion

London.—The Canadian Club of Great Britain on Empire Day entertained the Duke of Devonshire, ex-Governor-General of Canada, at a luncheon which was attended by a good many Canadians and ex-Canadians now residing or visiting in London. There were present also Ambassador Lord Curzon, Secretary of State, Sir Hamar Greenwood, Secretary for Ireland, Hon. E. Shortt, Home Secretary, and Col. L. C. Amery, Parliamentary Secretary for the Board of Admiralty.

Sir George Brown, president in the absence of Hon. P. C. Larkin, who is in Geneva. Responding to the toast in his honor, the Duke said that even ten months had not passed since he resumed his residence in England had not robbed him of the optimism acquired in Canada. It was easy enough to talk about Canada's natural resources but the marvellous development of the Dominion was a guide to the character of the people and its institutions.

Responding to the toast in his honor, the Duke said that even ten months had not passed since he resumed his residence in England had not robbed him of the optimism acquired in Canada. It was easy enough to talk about Canada's natural resources but the marvellous development of the Dominion was a guide to the character of the people and its institutions.

## Serious Position Of British Aviation

France Will Have 226 Squadrons Against Britain's 12

London.—Major W. T. Blake, of the Royal Air Force, and Captain Norman Macmillan, who led the flight of Sir Ross Smith took over the latter's place to fly around the world, were entertained at luncheon in London by the Daily News. Lord Montagu, of Beaulieu, presiding, was announced as the speaker. He was announced as the speaker. He was announced as the speaker.

## Many Soldiers Have Abandoned Farms

Hon. Charles Stewart Says Number Totals Over Two Thousand

Ottawa.—Hon. Charles Stewart, Minister of Immigration, stated in the House of Commons that there had been 2,253 abandonments of farms by soldier settlers.

The total amount of public monies invested in the abandoned farms was \$9,885,536. The amount invested in lands and buildings was \$1,651,237. The amount invested in stock and equipment was \$539,553, and the return received from the sale of this stock and equipment \$376,466.

Quashes Bylaw on Daylight Saving. Toronto.—Justice Latchford quashed the daylight saving bylaw passed in Kitchener, Ont., on application of a merchant of that city. The judgment states that Section No. 250 of the Municipal Act given as authority for the bylaw is restricted to health and regulations for health, safety, morality and welfare of the municipality. He holds that daylight saving does not come under any of these heads.

Murder of British Officer. Calcutta.—Wilfred Cave, a British officer, Assistant-Commandant of Police, was shot and killed while returning home from a bicycling trip. Six bullets of different kinds were found in the body of Mr. Cave, proving that there was more than one assassin. No arrests have been made.

Cave once belonged to the body guard of Viscount Milner, former British Secretary of State for the Colonies.

German War Material Destroyed. Berlin.—Up to March 1, Germany had destroyed 3,855,000 rifles and carbines, 104,000 machine guns, 35,700,000 loaded shells and mines, 14,800,000 grenades, 13,383 airplanes and 24,045 airplane engines, according to official figures.

Subject of Conference

J. A. MacLaughlin, Editor of The Empire-Advocate, Virdee, Man, and President of Manitoba Section of the Western Canada Press Association.

Saskatchewan Musical Festival

Splendor of Massed Choral Singing

Regina.—Not less than 3,500 people gathered at the Stadium on Wednesday evening and in point of attendance the day may be said to have been a complete success in spite of the holiday rather than because of it.

For trains both into Regina and out carried capacity crowds, and though hundreds sought refuge from the packed streets, hundreds of others came in to attend the festival—a proportion of them to take part.

The evening programme was given over to the final performances of Class A brass bands, choral societies and military bands. This was followed by the performance by the massed choral societies—an aggregation of something like 1,600 singers—of Rachmaninoff's "Cherubim Song" under the baton of Francis Stevenson, conductor of the Orpheus Choral Society of Saskatchewan.

Saskatoon carried off the most coveted honors of the 1922 musical festival, when the Orpheus Society won the shield in the choral society contest with 174 points. The Moose Jaw Choral Society, conducted by W. H. Maxwell, came second with 170. The Regina Choral Society, conducted by F. Laubach, was given third place with 163 points; and Prince Albert Choral Society, conducted by Madame J. E. Morier, was fourth, with 160 points.

The splendor of the massed choral singing can best be imagined from the statement of T. Tertius Noble, who has observed the festival, that it is a festival chorus most undoubtedly and it is made up of magnificent material.

Drayton Says Pledges Ignored

Conservative Amendment to Budget Criticizes King Government

Ottawa.—When the budget debate was resumed, Sir Henry Drayton moved an amendment, which, after quoting the Liberal drift platform of the 1919 convention and stating that this had been restated as the Liberal policy in the Liberal handbook of 1912, declared that "the Liberal party have been returned to power; the budget proposals of the Finance Minister now brought down constitute on the part of the Government an utter failure to implement such pledges by legislation."

The Drayton amendment declares further: "The making of such solemn pledges; the utilization of them to secure support and their flagrant disregard after the attainment of office reveal a disregard of political honor and a tendency to lower the standard of public life."

New Tax on Cheques

Montreal.—The statement is officially made by the stock exchange that the new tax on cheques and stock transfers does not take effect until July 1.

## To Discuss Waterway Project

U.S. Notifies Canada that It Would Like to Open Negotiations

New York.—The United States administration has notified Canada that it wishes to open negotiations for the construction of the St. Lawrence Great Lakes Ship Canal as soon as possible, a Washington correspondent of the Tribune declares in a dispatch. The correspondent says he learned that this request has been transmitted to the Ottawa Government by Sir Auckland Geddes, British ambassador in Washington, at the request of Secretary of State Hughes.

"This is the latest step in the history of this project, so vital to many great lakes towns with visions of Maritime dominance over their docks," says the Tribune story. "President Harding became convinced some time ago that a treaty would have to be negotiated before any legislation should be passed. This decision was a rude shock to most of the advocates of the project especially those from the States in the northern part of the middle west."

"The Canadian Government it is learned here is very much embarrassed at the request just made by this Government at this time. Unofficial information has been allowed to reach Washington some time ago to the effect that while Mackenzie King, present head of the Canadian Government, was personally favorable to the project, he did not wish it brought up at this time."

"The British embassy has been so informed by the Canadian Government and has transmitted the request to the State Department, that no official statement be made by this Government about the request."

Drainage Work in Alberta

Thousands of Acres of Reclaimed Land Put Under Cultivation

Edmonton.—L. C. Charlesworth, irrigation and drainage commissioner for the Provincial Government has returned from an inspection of the Holden drainage system preparatory to making out the contractors. The work is practically completed and a good portion of the 13,000 acres of land thus reclaimed is already being put under cultivation.

The Hayden drainage scheme, in which 16,000 acres will be involved is now in progress of construction and work will be carried on through the summer, with a likelihood of getting it nearly or wholly completed this year.

Fatal Canoe Accident

Two Men Drown When Canoe Overturns in Rapids

Winnipeg.—Overturning of a canoe containing three members of the forestry service, on Winnipeg River, above Manitowish Rapids, resulted in the drowning of Fred French, a first-year student in the forestry school, University of Toronto, and Albert Bale, of Winnipeg, a cook, according to word received here.

Another university student, N. M. Konat, succeeded in reaching shore after making a valiant effort to rescue French. He held him until he realized they both would be drawn over the rapids, when he was forced to relinquish his hold. French and Bale were swept over the rapids.

Post Office Will Issue Licenses

Ottawa.—After June 1, radio receiving licenses will be issued through the post office department of larger cities as well as through the radio branch of the naval service department. Hitherto all licenses were issued through the latter department.

An earlier report that the issuing of the licenses would be turned over to the postal department is incorrect. The charge is \$1 annually.

To Solve Europe's Problems

London.—Prime Minister Lloyd George, acknowledging a message from the Welsh National Parliamentary party, said that Great Britain's struggle to solve Europe's urgent problems in a spirit of co-operation and peace was only beginning. He added that the Geneva conference had pointed the way and that he was confident the goal would be reached.

## Lloyd George Proclaims Policy Of Co-operation With French Democracy

### Temperance and Morals

Liquor Question Will Be Issue in Quebec Elections

Montreal.—"There will certainly be elections. I cannot say just when. I hope they will come soon, but I certainly don't think they will be held either in June or July."

This was the feature of the speech made by Hon. J. L. Perron, Provincial Minister of Roads, addressing the members of L'Association de la Paix Libérale here. He added: "Whether the sale of liquor in this province is to continue under Government control or go back to individual vendors as under the old license system is in my opinion the fundamental question and it is on this question first and foremost that elections will be held in this province."

Mr. Perron declared that alcohol in North America was a necessity. "We must have it, for if we did not there would be worse things. The revenue part, after all, is only a secondary matter. It is a question of temperance and morals."

End Occupation in July

Will Soon Withdraw Allied Troops From Upper Silesia

Paris.—The allied military occupation of Upper Silesia is likely to come to an end by the last of July, according to the report of the allied commission for the district which was considered by the council of ambassadors here. Fourteen thousand men of the allied forces are still in Upper Silesia. Of these 11,000 are French, 1,500 British and the remainder Italian.

The Germans and the Poles recently reached an agreement covering adjustments in the district and the commissioner now forecasts a situation which will permit complete withdrawal of the military within 60 days.

English Meat Traders Ask Embargo Removal

Say Canadian Cattle Only Remedy for Livestock Shortage

London.—"We are greatly concerned over the big shortage of livestock in the country and the high price of English meat. The only remedy is re-introduction of Canadian cattle."

This begins the anti-embargo resolution of the National Federation of Meat Traders. The Daily Express, in commenting on the embargo controversy, supposed Sir Arthur Griffith-Boscawen and other ministers prefer home-killed meat themselves, so why imagine that other people prefer the foreign variety.

It pays to patronize home industry. Day from the merchants in your own town.

Ten Killed in Explosion

Vienna.—Ten persons are known to have been killed and at least 60 injured in an explosion in an ammunition factory at Hummer, near Vienna. The force of the explosion destroyed or damaged all the houses in town.

The disaster was due to a fire which broke out in the factory and caused the detonation of a large quantity of dynamite.

The United States is the world's largest consumer of crude cocoa.

Important Changes In Taxation Announced In Budget Speech

Ottawa.—Not a seat was vacant in the House when Hon. W. S. Fielding arose to present the first budget of the present administration, but his sixteenth as a Minister of Finance. When Mr. Fielding last made a budget statement, 11 years ago, his story was one of a bounding prosperity. Today (as an aftermath of war), it was because of the gravity of the financial situation that he stressed the necessity of making his budget balance.

He had reductions to announce in customs duties; but he had likewise some sweeping increases in taxation. He pleaded for the "deep and earnest need" of economy; he urged that Members of Parliament and the people alike should pass a self-denying ordinance. "I would not, however," Mr. Fielding hastened to add, "have anyone draw the impression that I take a gloomy view of the situation. There is, happily, a brighter side."

For the financial year 1922-23, the Finance Minister summarized the financial situation in this wise: Estimated revenue, \$322,629,000; estimated expenditure, \$466,983,359.

The following gives the budget in brief: Tariff reduction combined with increase in special taxes: British preference increased on many items. Few reductions on imports from United States. Act of last session regarding consular certificates, valuation for duties, and limiting depreciation on foreign exchange to 50 per cent, are all repealed. Goods Marking Act repealed, but maintained a permissive act option of Government.

Sales tax increased by 50 per cent. Tax of 1 per cent. imposed on bank circulation, in addition to income tax. Five per cent. tax on premiums paid to unlicensed insurance companies.

Tax on cheques raised to 2 cents on each \$50. Tax on telegrams raised to 5 cents. Taxes on tobacco cigars and cigarettes revised so as to relieve cheaper brands and increased rates on more expensive. Ale, beer, porter, etc., to pay tax of 15c per gallon. Soft drinks taxed 10c a gallon. Automobile tax of 5 per cent. on automobiles up to \$1,500 in value; above that, 10 per cent. Confectionary to pay tax of five per cent. Tax reduced on matches in small boxes. Customs rates on agricultural implements reduced by from 2½ to 5 per cent. Increase in British preference on sugar. Duties on cocoa and chocolate reduced. Reduction of 2½ per cent. in duties on woollen clothing. Collars and cuffs, reduction of 5 per cent. Boots and shoes, duty reduced 2½ per cent. Reduction in duty on gasoline for fishing vessels, and on other fishermen's supplies. Reduction of 2½ per cent. in British preference rates on cotton yarns and cotton fabrics, also on knitting goods, linen, or cotton clothing. British "movie" films to come in at lower rate. Machinery for saw mills reduced under the special tariff. Excise tax of 49 cents imposed on beer sugar. Parts of pumps and iron tubing come in at reduced duties for mining industry. Iron tubing and tools reduced for plumbing. Window shades reduced 2½ per cent., if British. Import of many birds added to prohibited list. Drawback schedule revised.

## VERY REAL DANGER TO THE WORLD PRESENTED BY RUSSIAN SITUATION

London.—Lloyd George in presenting to the House his report on the Geneva conference in respect to Russia, said in part:

The problem naturally exciting the most controversy was that of Russia. It was no use questioning the situation, said the Premier. There, in the conference, sat the men who represented the unchallenged masters for the time being of that formidable and very distressed people. The millions of Russia could only be dealt with through them; could only be brought into contact with the outside world through them; could only be rescued from hunger and death through them. The treasures of Russia, the Premier pointed out, could not be unlocked to the outside world except through them. The peace of the world through them; could only be rescued from hunger and death through them. The treasures of Russia, the Premier pointed out, could not be unlocked to the outside world except through them. The peace of the world through them; could only be rescued from hunger and death through them.

EVERY UTENSIL FOR THE HOUSEWIFE

**S. R. Bowerman**  
THE HARDWARE MAN

Mr. Mike McIntee, while lowering a casing in his well on the farm suffered the loss of three teeth and a severely lacerated hand, when the break refused to work and the curling dropped several feet pulling the cable through his hand and the revolving crank striking him in the face.

W. E. Mills, was a visitor to the city last week end on business.

Miss M. Donovan was a visitor to the city over the week end and bought large quantities of fall stock.

The real pleasure of camping is its lasting joy. Make it last by Kodak pictures. We have this popular camera in all sizes and prices at Wainwright Pharmacy.

It is an ill wind that does not blow someone any good. The local risk is under repair as the result of the wind storm a few weeks ago.

The Ward property on Main street is getting a new coat of paint.

We take this opportunity to remind our readers that attention is being drawn to arrears in taxes.

## LOCAL INTEREST HAPPENINGS

**BORN**—To Mr and Mrs Percy Haynes of Consort, Alta (formerly of Wainwright) a girl.

The dense pall of smoke which has obscured the sun during the past few days was caused by forest-fires North and West of here.

Mr J. Primrose of Islay spent a few days in town last week visiting his mother.

Mrs Koloy and her mother Mrs G. Thompson were passengers to Winnipeg on Monday.

The Wainwright hotel dining-room has been redecorated by Frank Stott and reopened under new management on Wednesday last.

Get the boy a Brownie! From \$2.00 up. Wainwright Pharmacy.

A group of men have been busy during the last week repairing the U.G.G. Elevator.

While pruning trees, near his home last week, Mr Geo Hudson met with a bad accident.

Major Boyer of Montreal is looking after the interests of the Quebec and Western Land Company.

Before leaving town for Biggar Mr H. Plaxton and Foster, called at the McLeod furnishing store and bought a complete outfit of household effects. These gentlemen contend that they were able to get better bargains at the local store than either Edmonton or Saskatoon.

We are sorry to learn that Mr C. Ham, of Edmonton, and formerly of Wainwright, is sick at the Royal Alexandra hospital.

The many friends of Miss Hazel Bruner, will be glad to learn of her graduation in nursing at the Royal Alexandra hospital.

Mr and Mrs McKay of Hardisty are visiting their son R. A. McKay for a few days.

Mr. J. S. Brassard from Quebec, is visiting friends in town.

Mrs Geo. Rosholt left on Friday last for Chicago to visit friends.

Mrs. Jack Lewis, is spending a few days with her mother Mrs O. M. Lewis before going to Chicago.

Dr. C. C. Tatham, of Edmonton spent a few days in town last week while on his way to Mayo Brothers and other eastern points.

Dave Davidson and family motored to Edmonton for the week end.

Thomas G. Cook, general manager of the Imperial Lumber Company is a member of the Edmonton delegates to the Shriners Convention at Los Angeles.

Mrs Howard Plaxton and Mrs Walter Roster have moved to Biggar in which place they will make their future home.

See the new Vacuum sweeper at the Wainwright Pharmacy. It will lighten the housewife's burden.

Remember that our building experience backed by one of the largest and oldest Lumber Companies in Canada who supply us with the latest plans and keep us in constant touch with architects in the larger centers, extending over several years, will prove of value to you when you think of repairing or building. We make an extra effort this year to encourage the use of hard wood floors, B.C. grained finish Veneer doors, leaded lights and other up to date features, as well as the building of sanitary hen-houses, economical ensilage storage, wind proof barns, and all other farm features and buildings. Leave your building worries with us and we will turn them into satisfaction. Atlas Lumber Co.

During this summer we learn there is to be a change in Methodist pulpits. Rev. N. Priestley who has been with us for four years, is to be stationed in future at Coaldale. If the plans of Conference Committee are carried out, we are to have Rev. Bosworth. We understand that he has supplied at Grace church before and has many friends in the district. The change will probably take place in July.

Miss M. Jost, of Edmonton, spent the week end with Mrs Geo. Clark of Babayan.

Mr W. C. Bowen has been granted a building permit for a \$5,000 dwelling on 85th avenue, Strathcona.

On Wednesday last Dr. H. C. Wallace was a passenger to Rochester, Minn., U.S.A., whither he accompanied Mrs H. Dowling for specialist medical treatment.

It is rumored that a number of surveyors will make their headquarters at Wainwright while surveying the new telephone lines north and south of town.

You can get full value for your livestock by shipping through the U. F. A.

The McLeod store at Heath will be closed on Wednesday at noon during the summer months.

Mr A. Johnson has resigned his position with the Armstrong store, and his place has been filled by Jack Cunningham.
